Insurance Underwriters

Risk Management Program

AIU features a robust Loss Control Department that works tirelessly to mitigate an insured's property risk. The service AIU provides includes conducting comprehensive property inspections of all locations upon entry to an AIU program. Our goal is to ensure that your property is well maintained and to lower potential hazards that may evolve into claim situations. The result of this enhanced loss control protocol is of benefit to the property owner, AIU, and our carrier partners. We seek to be a valuable resource to our insured members by assisting them in maintaining low risk properties.
